

Re: Hypo-allergenic Incense Available

Recently concerns have been received about more people having allergies to incense. After researching the issue, I found Trinity Brand hypo-allergenic incense which is available for purchase at Abundant Graces, Easton and St. Jude Shop, Havertown, PA. The scents are flowers, forest and powder. Powder is the lightest scent. This type of incense will accommodate those who are allergic to the present incense being used at liturgical celebrations.

Once your present supply runs out hopefully you will consider purchasing the Trinity Brand hypo-allergenic incense.

A suggestion might be that when you begin using the new incense to put signage in your vestibule, a blurb in the bulletin or make an announcement informing people of the change to hypo-allergenic incense.
